- Cost: \$20 per student (\$10 for siblings)
- To register or for information: Paula Weems paulaweems@hotmail.com

Gregory Rehmke directs programs for Economic Thinking.

Join us for an **Economic Thinking Workshop** exploring economics, political philosophy, current events, and international issues. What is the proper role of government in a free society? Does government gain its legitimacy from protecting rights? If so, how do we discover legitimate rights claims?

In the ancient city of Novgorod the Great, popular assemblies of freeman were the source of government sovereignty and legitimacy. So it was in cities of the West, before the rise of nation-states. And if governments today in Africa, Asia, and the Middle East do not protect the rights of people living within their borders, does that failure invite popular uprising? Or foreign intervention? (Focus on the Russia topic: 2-4 pm.)

This workshop will appeal to a wide audience of students interested in public policy and world affairs.

More than 5,000 homeschool students and parents have attended FEE and Economic Thinking programs.
